DOARDMAN'S PATENT IMPROV
ED STEAM BOBLER AND FURNACE.—The Patentice is now prepared to sell single or territorial rights to
mee the above named improvement. Recent experiments
have demonstrated that this form of Boiler effects a saving of one-bald the face required to run the best Gylinder
Boiler with return flues, and about 40 per cent. of the
smount used by Locomotive Boilers. The heat is so thoroughly applied to the water that the temperature in the
chimney is reduced below 140°. The smoke and combostible gasee are consumed within the furnace. The refuse gas
metantly extinguishes fame or sparks, so that all danger
from sparks is avoided. This Boiler is very compact in
form occupying less space tian any other of fike power.

OURNEYMEN HAT-Makers, that is a fact well known to all Journeymen Hat-Makers, that is a fact well known to all Journeymen Hat-Makers, that is a fact well known to all Journeymen Hat-Makers, that is a strade our interests are being continually encreached upon by those who have other not served a proper term of apprenticeship or no apprenticeship at all to the trade. And, furthermore, it is generally believed that this extensive and growing evil, as well as others to which the trade is subject, its owing mostly to the want of unity in purpose and action on the part of the Journeymen.

While we regret that aggression compels us to act on the defensive, we are urged so to do by the consideration, that from ourselves only when united and acting with firmness, can we expect to obtain that justice which is our due.

The Journeymen of New Jersey being unanimously of the opinion that the only practicable and effective way of delivering the trade out of the hands of these men, bord before their time, to consist in Association, have accordingly formed themselves into a Society to be called the United Journeymen Hat-Makers' Society, of which Union and Protection are the main features, and which is organized upon a basis likely to be permanent.

The success which the movement has met with in this State fatters the hope that with regard to the question in point, it is destined to effect a revolution in the trade, It is earnestly recommended to the Journeymen of New-York and vicinity, Connecticut and elsewhere, that they take measures to cooperate with the men of New-York and vicinity, Connecticut and elsewhere, that they take measures to cooperate with the men of New-York and vicinity, Connecticut and elsewhere, that they take measures to cooperate with the men of New-York and vicinity. Connecticut and elsewhere, that they take measures to cooperate with the men of New-York and vicinity of the enter-Prise.

### MEDICINES.

CONSUMPTION.—There is, perhaps, CONSUMPTION.—There is, perhaps, no disease with which our country is affected, which sweeps of ainually so many victims, as that fell destroyer of the lumin race—CONSUMPTION. Day after day, year after year, the instaltate monster turies to the portats of the colil and silent tumb fresh added victims to its conquest.—No waits of life is sacred from its bilgating influence. No age is ex-empt from its death-deating shafes. The old, the middle-aged, and the young—all alike, are food for this common enemy of makind. The white-haired partiarch, whose life of temperance has rendered his system imperious to the attacks of other ills, and whose good deeds prepared him for the enjoyments of life's caim evening, finds CONSUMPTION instening its fangs upon his vitalis, and tearing him from a world ever bright to minds which look complacently on days well spent.

Is there no help for the afficied! No preventive of the dangers which beset us in our changeable and fickle clime! We think there is. And if the allegations of those who are at least entitled to veracity, may be believed, there is a preventive and a remedy.

WISTARS EALSAM OF WILD CHERRY is offered

at least entitled to versing, and versions at least entitled a remedy.

WISTAR'S FALSAM OF WILD CHERRY is offered to a suffering world as such. It needs not the "adventitious nod" of a long string of fictitious certificates to give it notoriety. Its true value and invinse excellence are sufficient to entitle it to the confidence of the public, and to "Waft on to fame"

the name of its inventor as a henefactor of his species.

TEN THOUSAND CURES and NOT A SINGLE FAILUAGE DR. HASTING'S COMPOUND SYRUP OF NAPTHA, celebrated throughout both Cominents for its wonderful cures of Consumption, Astima, Decline, Spitting of Blood, Night Sweats, Difficult Breathing, Coughs, Colds, and all diseases of the Chest and Lungs.

Breathing, Coughs, Colds, and all diseases of the Cuest and Lunga.

Its effect upon the system is mild and soothing, at the same time certain and efficacious—rarely failing to give relied upon the first application, and by repeating it a few times a permanent cure is effected.

The proprietor, therfore, not only recommends his NAP.

THA SYRUP, but warrants it to cure. He warrants it to actupen the Chyle and purify it, he warrants to remove all impediments which retard the free circulation of the blood, he warrants it to open the internal and external porces of the brdy, and eject all the obnoxious particles which have accumulated in the system; he warrants it as a never-failing remedy in

comulated in the system; he warrants it as a never-failing remedy in CURING DISEASED LUNGS.

Hectic Fever, Night Sweats, Dyspepsia, Liver Complaints, Pain in the Chest and Astima; and he warrants it to arrest the formation of tubercles in the lungs, and to heal those all-ready formed, so that persons in consumption may take it with the most positive confidence of a cure, for its great-sest of action is in the Lungs, which it penetrates in all directions, purifying them of everything obnoxinas in its process, and which, if applied according to directions, cannot fall to leave in a perfect healthy condition.

DR. HASTING'S COMPOUND STRUC OF NAPTHA is highly recommended by the Medical Profession. That senitent Physician, Dr. Mott of New-York, says "that say Pulmonic Remedy it cannot be too highly praised." Dr. Ward of Liverpool, England; Dr. Boyd of Lancaster, Dr. Hamilton of Bath, and those eminent publications, the London Lancet, the Medical Journal, and Braithwaite's Retrospect, all accord to it the most convincing certificates of its virtues. In this country it has been used with distinguished success.
